1. When pouring concrete, include 5/16" -18 x 13L anchor bolt using mounting template or fixture base for proper alignment. It is critical that anchor bolts are set to protrude 7/8".
2. Make wiring connections to fixture with power off.
3. Once bollard is anchored into position. It is time to install the lamp and attach the decorative head. Note: head can vary from style shown.
4. Next install the lamp as per the label requirements. (lamp by others.)
5. Fasten decorative head to fixture using 4 set screws.

GENERAL

1. Before starting the installation, disconnect the power by turning of the circuit breaker or by removing the fuse at the fuse box. Turning the power off at the light switch is not sufficient to prevent electrical shock.
2. To ensure the success of the installation, be sure to read these instructions and review the diagrams thoroughly before beginning.
3. All electrical connections must be in accordance with local codes, ordinances, or the national electrical code.

Note: The important safeguards and instructions appearing in this sheet are not meant to cover all possible conditions and situations that may occur.
