Instructions

1. Before connecting the fixture to power supply, be sure that the power is switched off.
2. Wire power supply wires to fixture wires, be certain to make secure connections.
3. Install mounting plate to junction box. Depending of junction box used, additional holes may need to be field drilled.
4. Mount fixture to wall plate, tighten set screws to secure fixture to plate.
5. Use a bead of silicone caulk around the edge of the mounting arm where it meets the mounting surface to create waterproof seal between the fixture and the wall.
