### Aesthetic and Robust Fasteners:

Fastener free faceplate offered standard for optimal aesthetics, simply snap in luminaire during final installation for a sleek look unlike any other step light on the market. Ultra corrosion resistant, 316 Stainless Steel hardware comes standard on the exterior including tamper-proof screw option for high-traffic or vandal-prone areas.

### Zero Uplight Design:

Full cutoff optics ensure compliance with dark-sky and light pollution-sensitive applications (for selected models).

### Extreme Ingress Protection:

First in the industry for IP66, IP67 and IP68 Ratings in a singular product per (IEC 60529) standards. Ensuring ultimate protection in the most severe wet environments including washdowns.

### Industry Leading Dimming (Standard):

Equipped as standard with Tri-Dim control (0-10V, TRIAC, ELV) with 1% dimming, providing flexible dimming protocol compatibility without the need for special orders.

### Flexible Mounting Options:

Supports wall and mortar installations with backbox and faceplate configurations for fast, secure installs.

### Fail-Safe Waterproofing System:

High-quality inert solid silicone gasketing, breather vents, anti-syphon cables, and waterproof wire nuts ensure complete protection against water ingress and corrosion, extending the life of the sealing system.

### Rugged, Long-Life Design:

Heavy Walled Low Copper Content High Pressure Die-cast housing and faceplate purified with passivation prior to receiving superior anti-corrosive coatings (hard anodized + powder coat six-stage, 5K hour salt spray to B117 and AAMA 2604 standards (AAMA 2605 optional). Enclosed with purely opaque inert silicone gasketing and an IK09 (IEC 62262) impact-resistant crystal clear low iron heavy gauge glass to ensure durability in even the most extreme environments.

### High-Efficacy Lighting Performance:

Precision German-engineered reflector materials maximize lumens-per-watt efficiency with advanced semi-specular diffusion, delivering multiple tunable output packages that provide up to twice the footcandle levels of competing products reducing luminaire quantities by half on most projects.

### Construction-Ready Backbox:

Industry leading heavy-walled polycarbonate back box delivers maximum impact resistance and UV protection (UL 746C F1), combined with the highest flame rating in the industry (UL 94 5VA) and a factory-standard ETL Certified wiring compartment per NEC for primary and thru-wiring, featuring a splatter guard to block debris during rough-in or concrete pours for contractor-ready installation with all mounting options provided in one easy to use kit. Back box kit can ship in < 48 hours upon receipt of order to fast track construction phase on-site prior to factory sealed step light luminaire giving the contractor the ability to finish projects quickly without risk for installer to ensure a seal to maintain wet location rating.
